Portfolio

Summary

- Full-Stack Software Engineer with **1+ years of professional experience** (February 2025 – July 2026) building and deploying production web applications using React, TypeScript, Node.js, FastAPI, and RESTful APIs. Experienced across the f**ull development lifecycle, including application architecture, backend and API development**, SQL/NoSQL databases, authentication, testing, deployment, and CI/CD across AWS and modern cloud platforms.
- Hands-on experience integrating AI capabilities into production applications, including NLP-based matching systems and Retrieval-Augmented Generation (RAG) solutions using LLM APIs. Strong focus on **building maintainable, scalable solutions and solving technical problems** across frontend, backend, databases, and cloud infrastructure.
- Currently based in **Dubai, UAE** and available for immediate joining.

Core Skills

Frontend — React.js | TypeScript | JavaScript | Tailwind CSS | Vite | HTML5 / CSS3
Backend — Node.js | Express.js | FastAPI | Python | RESTful API Design | API Integration | JWT Authentication | bcrypt.js | Microservices | Error Handling
AI & LLM — LLM APIs (Gemini 2.5 Flash) | Retrieval-Augmented Generation (RAG) | TF-IDF | Cosine Similarity | Semantic Retrieval
Databases — MongoDB | PostgreSQL | MySQL | Mongoose | MongoDB Atlas
Cloud — AWS SAA-C03 Certified (EC2, S3, IAM, RDS, CloudFront) | Vercel | Render | Neon | CI/CD
Tools — Git | GitHub | Linux | CI/CD | Microservices | API Integration

Education

Vidya Jyothi Institute of Technology,
Bachelor of Technology in Information Technology
2022 – 2025 | Hyderabad, India
CGPA: 7.78

Quli Qutub Shah Government Polytechnic College,
Diploma in Electrical and Electronics Engineering
2019 – 2022 | Hyderabad, India
CGPA: 8.55

Interests

- Freestyle & Arm Wrestling
- Running & Cycling
- Competitive Sports
- Technology & AI
- Building Side Projects

Experience

Full Stack Developer, *SAHL Business Solutions*
02/2025 – 07/2026 | Hyderabad
- Designed and maintained production web applications using **React, TypeScript, Node.js, Express.js, and FastAPI,** following modular and maintainable architecture.
- Designed RESTful APIs, authentication and authorization workflows, and data models across **MongoDB and PostgreSQL**, ensuring reliability and data integrity.
- Integrated **Python-based AI services and NLP capabilities**, including TF-IDF, cosine similarity, and RAG, into SaaS features and data-driven dashboards.
- Developed reusable React components with Tailwind CSS and integrated backend services, focusing on performance and responsive user experiences.
- Containerized and deployed applications across AWS, Vercel, and Render, maintaining **Git-based CI/CD workflows** across development and production environments.

Projects

Nexus - AI Developer Command Center , *React, TypeScript, FastAPI, RAG (Gemini 2.5 Flash), PostgreSQL (Neon), AWS*
- Engineered an **AI-powered developer portfolio** platform using **React, TypeScript, FastAPI, and Gemini 2.5 Flash**, enabling natural-language retrieval of project, technical, and architecture information.
- Implemented a **Retrieval-Augmented Generation (RAG)** pipeline with semantic retrieval and prompt engineering over a **structured knowledge base,** delivering context-grounded streaming responses.
- **Designed, deployed, and operated the platform end-to-end** across Vercel, Render, and Neon PostgreSQL, subsequently migrating the backend to **AWS using EC2, S3, IAM, and RDS.**

Trackr – AI-Enhanced Job Tracking Platform ,
MERN Stack, FastAPI, NLP (TF-IDF)
- **Designed and deployed** a full-stack job tracking platform using React, Node.js, Express.js, and MongoDB, covering application tracking, deadlines, **status management, analytics, and RESTful APIs.**
- Engineered a Python/FastAPI microservice implementing TF-IDF and **cosine similarity** to score resume-to-job compatibility (0–100%), identify missing keywords, and generate ATS-focused recommendations.
- **Integrated the AI microservice with the Node.js backend** and deployed the application across Vercel, Render, and AWS, exposing the platform through a **custom production domain.**

Certifications & Achievements

AWS SAA-C03 , *Certified Solutions Architect – Associate*

Nutanix NCP-MCI ,
Certified Professional – Multicloud Infrastructure

Programming Essentials in Python , *Cisco*

React Front-End Development , *HackerRank*

Inter-college Technical Quiz
Runner-up among 250+ participants
