Portfolio

Summary

- **IT Operations & Cloud-focused professional** with **1+ years of professional experience** (February 2025 – July 2026) supporting and deploying production applications across **Linux environments, AWS, and modern cloud platforms**. Experienced across the **full technical lifecycle**, including application and API support, databases, troubleshooting, deployment, monitoring, and CI/CD workflows.
- Hands-on experience in **technical troubleshooting and production support**, diagnosing issues across **applications, APIs, databases, services, and cloud infrastructure**. Strong foundation in **AWS, Linux, networking, system monitoring, root-cause investigation, and cloud deployments**, with an AWS Certified Solutions Architect – Associate certification.
- Currently based in **Dubai, UAE** and **available for immediate joining**.

Core Skills

IT Operations & Support — Troubleshooting | Incident Triage | Root-Cause Investigation | Production Support | Application & Service Support | Environment Configuration | Monitoring

Cloud & Infrastructure — AWS SAA-C03 Certified | EC2 | S3 | IAM | RDS | VPC | Security Groups | Cloud Deployment | Infrastructure Troubleshooting | Terraform

Linux & Networking — Linux / Ubuntu | Bash | TCP/IP | DNS | SSH | VPC Networking

DevOps & Tools — Git | GitHub | Docker | CI/CD | GitHub Actions

Backend & APIs — Node.js | Express.js | FastAPI | Python | RESTful APIs | API Integration | JWT Authentication | Microservices

Databases & AI — PostgreSQL | MongoDB | MySQL | LLM APIs | RAG | Semantic Retrieval | TF-IDF | Cosine Similarity

Education

Vidya Jyothi Institute of Technology,
Bachelor of Technology in Information Technology
2022 – 2025 | Hyderabad, India
CGPA: 7.78

Quli Qutub Shah Government Polytechnic College,
Diploma in Electrical and Electronics Engineering
2019 – 2022 | Hyderabad, India
CGPA: 8.55

Certifications & Achievements

AWS SAA-C03 , *Certified Solutions Architect – Associate*

Nutanix NCP-MCI ,
Certified Professional – Multicloud Infrastructure

Interests

— Freestyle Wrestling & Arm Wrestling | Running & Cycling | Competitive Sports | Technology & AI | Building Side Projects

Experience

Full Stack Developer, *SAHL Business Solutions*
02/2025 – 07/2026 | Hyderabad

- Designed and maintained **production web applications** using React, TypeScript, Node.js, Express.js, and FastAPI, supporting reliable application and service operations.
- Developed and supported **RESTful APIs, authentication workflows, and database integrations** across MongoDB and PostgreSQL, ensuring reliability and data integrity.
- Supported **application deployment and environment configuration** across AWS, Vercel, and Render, troubleshooting application, API, database, and service-integration issues across development and production environments.
- Worked with **Linux/Ubuntu, Git/GitHub, REST APIs, databases, and cloud services**, diagnosing technical issues and supporting development-to-deployment workflows.
- Containerized applications and maintained **Git-based CI/CD workflows** across development and production environments, supporting consistent releases, deployments, and application availability.

Projects

Cloud Infrastructure Platform — AWS & Terraform, *AWS | Terraform | Linux | VPC | EC2 | RDS | S3 | IAM | CloudWatch | Docker | GitHub Actions*

- Provisioned a **multi-tier AWS environment using Terraform**, implementing VPC networking, public/private subnets, route tables, security groups, and secure application-to-database connectivity.
- Deployed **EC2, Application Load Balancer, and RDS PostgreSQL**, configuring health checks and secure infrastructure connectivity.
- Implemented **CloudWatch metrics, logs, and alarms** for infrastructure monitoring, incident triage, and root-cause investigation.
- Containerized services with **Docker** and implemented **GitHub Actions CI/CD** for automated testing, builds, and deployment.

Nexus - AI Developer Command Center , *AWS | EC2 | S3 | IAM | RDS | FastAPI | PostgreSQL | React | TypeScript*

- Designed, deployed, and operated an **AI-powered developer platform**, managing application services, cloud deployment, environment configuration, and production operations.
- Migrated backend infrastructure to **AWS EC2**, integrating S3, IAM, and RDS while managing application configuration and service connectivity.
- Implemented a **FastAPI backend with PostgreSQL and Gemini 2.5 Flash**, troubleshooting API, database, environment, and service-integration issues across deployment environments.

Trackr — AI Job Tracking & Resume Analysis Platform ,
AWS | Vercel | Render | Node.js | Express.js | FastAPI | MongoDB

- Designed and deployed a **full-stack platform** using React, Node.js/Express, FastAPI, and MongoDB, supporting application tracking, analytics, authentication, and AI-based resume analysis.
- Integrated a **Python/FastAPI microservice** with the Node.js backend through REST APIs, troubleshooting service communication and application issues across environments.
- Deployed application services across **AWS, Vercel, and Render**, managing environment configuration, production deployment, custom-domain routing, and service integration.
